Reception

The College of Arts and Sciences Faculty and Staff Awards Program was established in 2023 to recognize and reward faculty and staff for their commitment to excellence, outstanding performance and selfless contributions. The variety of awards illustrates the breadth and depth of the newest and largest college at Texas A&M University through a program intended to create cohesion and collegiality across disciplines by showcasing the strength and potential in working together at all levels to realize our individual and collective goals.

Excellence is a standard in the College of Arts and Sciences that is evident in the quality of our teaching, research and service. The range of accomplishments and contributions across the humanities, natural sciences and social sciences we celebrate each year is a direct reflection of our college as the academic heart of Texas A&M and the result of the many dedicated people who keep it beating. Congratulations to one and all!
