

**Biomedical Sciences Program  
484 Practical or Work Experience Registration Form**

**Note: Must be at least a U3 and have all your CBK's completed to qualify for this class.  
You will be registered for this class by the BIMS Office on/or after the first day of open  
registration. *You CANNOT register yourself!***

**Student is responsible for all fees and tuition incurred for adding this 484.** Fee statements will have already been sent out by the time this class is added. **No New Fee** Statements will be sent. Any fees and/or tuition that are not paid by the first day of class will result in all registered courses being dropped.

**Student Name:** \_\_\_\_\_ **UIN:** \_\_\_\_\_

**Local Phone:** \_\_\_\_\_ **TAMU Email:** \_\_\_\_\_

**Local Address:** \_\_\_\_\_

This course provides an opportunity for additional learning through field or training experience in a biomedical science clinical or industry setting that is relevant to the student's career goals; professional supervision required. Receiving pay for the field/training experience is at the discretion of the supervisor. The following are typical experiences for which credit may be granted: Shadowing a health professional (this will involve contact with patients, if applicable); working as a health professional (employment as an EMT technician or veterinary technician); working in biomedical research (employment in a research laboratory). Specific learning objectives or goals must be defined. The student will receive 2 hours of BIMS directed elective credit upon completion of the course requirements (S/U grade). If the student is obtaining 485 credit for the field experience, then 484 credit will not be granted.

*Jobs that are not acceptable include: working on a farm or ranch, working in a general science department unless the biomedical applications are obvious, and possibly others.*

Please describe your biomedical-related experience and learning objectives planned for the semester:
