

# **Texas A&M GEOPHYSICS (BS) starts at Brookhaven College**

The Geology department in the College of Geosciences at Texas A&M welcomes transfer students from **Brookhaven College!** The Department of Geology and Geophysics offers the Bachelor of Science in Geophysics for students who wish to combine a proficiency in mathematics with an interest in Earth. The objective of this program is to develop a physically-motivated approach to the study of Earth phenomena, through treatment of physical and geological principles and development of mathematical tools. Graduates will be well-prepared for careers in the energy and environmental industries, and for advanced study at top-ranked graduate programs. The tracks offered within the BS in Geophysics – Environmental and Petroleum – prepare students for the most common career paths for geophysicists. This 8-term plan of study provides current and prospective students with a recommended pathway to completion of the Bachelor of Science (BS) in Geophysics. For a variety of reasons, many students opt for the transfer path to Texas A&M's College of Geosciences, and that is perfectly fine. It is important to understand how transfer applicants are reviewed for admission; therefore, following this pathway will help put you on your way to Texas A&M – *the pathway that started at Brookhaven College!*
