

In the first edition of SIOP's update for graduate and undergraduate programs, we highlight some of the many ways students can learn more about I-O psychology and SIOP. We also feature a few ways to become more involved! Please share this information with graduate and undergraduate students who may be interested.

APA's Psych Learning Curve Blog

The American Psychological Association hosts a blog aimed at enhancing the connection between different branches of psychology and the education system. SIOP's Visibility Committee has been partnering with APA to create a series of I-O related blogs. The most recent I-O related blog focuses on the prosocial work I-O psychologists are currently pursuing. If you are interested in writing a blog for the series, contact Lisa Kath (Lisa.Kath@sdsu.edu) or Keaton Fletcher (Kfletcher40@gatech.edu).

SIOP Conversation Series

Kelly Reed and SIOP's Visibility Committee have worked to create a series of webinars in which leading I-O scholars participate in an "Ask Me Anything" style conversation. The conversations are open to the public and free. Previous webinars are available in podcast form on iTunes, Google Play, or through any podcatching software. The next Conversation is with Elaine Pulakos, CEO of PDRI, on December 5, 2018 at 10:30 AM Central. Further information on previous and upcoming conversations can be found [here](#).

I-O Psychology Is a Top STEM Career

Did you know that I-O psychology is rated [#2 in Science jobs](#) by *US News*?

Did you know that I-O psychology is rated [#21 in STEM jobs](#) by *US News*?

Did you know that I-O psychology is listed as an "[On the Rise](#)" major in "Hot Jobs for Veterans" by G.I. Jobs?

Did you know that the mean annual wage for an I-O psychologist is [\\$102,530](#) according to the Bureau of Labor Statistics?

Want to know more about the specifics of being an I-O psychologist? Check out the [O*NET entry](#) for a detailed list of work activities, contexts, interests, and more!

I-O Related Podcasts

Are you looking for a good listen for your commute to school or work? Check out these podcasts that cover I-O psychology relevant topics!

SIOB Webinars

SIOB has created two series of webinars with experts in the field. One series is aimed at students and career changes, and focuses on what being an I-O psychologist, or I-O psychology graduate student, looks like. The next webinar for students will focus on the differences/similarities between I-O psychology and organizational behavior (OB). The second series provides practical topics for people seeking to implement I-O psychology principles in the workplace. Both series can be found [here](#), and are worth checking out to get a better understanding of what to expect in a career in I-O psychology.

List of SIOB Funds/Awards for Which Students Are Eligible

- [S. Rains Wallace Dissertation Award](#): Recognition of best doctoral dissertation research
- [William A. Owens Scholarly Achievement Award](#): Recognition of best publication (appearing in a refereed journal)
