Maximum Transferable Hours | 60
Second-Choice Major Eligible | NO

Coursework Timeline

- Competitive applicants will have the Required and Recommended coursework completed by the application deadline.
- Applicants to the summer/fall term **may be** asked to submit spring final grades, this is not a guarantee.
- Summer coursework **will not** be considered for summer/fall applicants.
- Fall coursework **will not** be considered for spring applicants.
- Applicants to the spring term should have the Required and Recommended coursework completed by the end of Summer II semester before applying.
- Credit by Examination courses will not count towards the 24 hours required for consideration for admission.

Additional Transfer Requirements

- Transfer applicants should have completed a full semester (spring or fall) course load of 12 transferable hours (minimum) after graduating from high school.
- The Department of Psychological and Brain Sciences is looking for students who are interested in pursuing our degree as a focus. Students should indicate our department as the primary major they are interested in if they wish to be admitted. The essay and supporting materials should reflect that the student is interested in pursuing our degree.
- Meeting minimum requirements does not guarantee admission. The entire record is reviewed for consistency in coursework and grades.
- The only acceptable Psychology courses from a community college are General Psychology, Human Sexuality, Statistical Methods in PSYC and Lifespan Development.
- Credit will not be given for both MATH 1324 and MATH 1332
- Maximum credit hours listed are hours completed at the time of application. All courses completed, regardless of degree applicability, are considered including transcripted credit by exam hours.
- Applicants cannot select which hours are transferable, or opt to exclude completed hours, and all hours will be factored when calculating maximum transferable hours.

Additional Information

- Applicants should be serious about earning a degree in Psychology.
- Transfer applicants are instructed NOT to accept transfer admission to any major with the expectation of later applying for an on-campus change of major.

Career & Educational Opportunities

Psychology is the study of the mind and human behavior. This discipline works in research and administration to help understand people, their capabilities, traits, and behavior and to explain their needs. Students majoring in psychology may earn either the Bachelor of Arts (BA) or Bachelor of Science (BS) degree. The psychology coursework is identical; however, the BA degree requires courses in a foreign language whereas the BS degree requires additional coursework in physical and biological sciences. Students who study psychology are prepared to enter a variety of employment opportunities (such as business, human resources, education, etc.) as well as many graduate and professional programs (such as medical school, law, psychology, etc.). For more information please visit careercenter.tamu.edu.
